Hi karenMafia here.

I obviously know about the link in Ochan since the first time.

But since this is a group without nothing to report Karens dont have any power here.

They've never had it anywhere anyway.

As i say, this is a group to unite the community to stay informed about the latest news from our community.

Contact with the true ones, i know some of you monkey enjoyers, some of you were admins of other groups, a trusted monkey lovers.

So now to resolve the karens question.

I hear proposals.

For example some of you have monkey photos in your accounts, it can be funny to force

These rats torture what they see. They don't care who or what they torture as long as they can satisfy their desire. All monkeys should be subjected to torture. Train all animals how to hunt monkeys.

Hi Good Morning MonkeyOkeBros.  
KarenMafia here.

Well i just made another account in Minds.  
Some of you already know since we hit 100 suscribers there lol.  
As usual the direct link is here:  
<https://t.me/+4InQKUcVsbVmMGJh>

It's just another experiment since is already compromised and surely reported by karens.  
Is a weird app since sometimes i upload a video and dissapear and much later appear so  
maybe there is some errors but most videos are there let's see if it last this day.

If you're looking to get into a group and don't want to just get invited into some shit show with no real content that's going to get pulled down any minute, AND YOU'RE WILLING TO WAIT AROUND FOR A LITTLE WHILE.

We have a room for vetting people and learning about them so that they don't need someone to vouch for them to get into the real groups. There's no posting images just conversation and us getting to know you so that you can come to Disneyland and see the groups that have everything.

T.me/monkeypassion

I look forward to seeing you guys there
